All bills must be paid within the first four weeks of the term. Failure to comply with this rule will deprive the student of the privileges of the University until payment is made, unless excused by special vote of the Faculty.

## REMOVAL OF ENTRANCE CONDITIONS ON ACCOUNT OF GOOD STANDING

At the close of Freshman year any undergraduate against whom entrance conditions are recorded may be relieved from these con-

ditions provided that during the whole of Freshman year he has pursued the studies required of him in the Departments in which the conditions lie and has maintained a rank not lower than third group in each of the said studies, and provided also that he furnish a written statement from the Headmaster of his preparatory school that he has covered the ground stated in our entrance requirements.

### CHOICE OF DEPARTMENT

Every student, excepting candidates for the C.E. degree, should notice early in his course that at the beginning of the Junior year choice must be made of a department on which he is to concentrate his study and that each department has certain pre-requisites which must be taken in the Sophomore year. Students, for example, who intend to enter the department of Biology in preparation for medical work must take Chemistry during the Sophomore year and are advised to continue a Modern Language. A list of the departments and their pre-requisites will be found on pages 93, 94 of the catalogue for 1908-9.

The electives for Sophomore year will be asked for before the close of second term, Freshman year.
